Subject Index of Volume 7

Absorbance
absorbance and emission properties of palladium octaethylporphyrin and palladium tetrahexylporphyrin in solution and in phospholipid membranes, 181
Alkali–labile sites
single-strand breaks in the DNA of human cells exposed to visible light from phototherapy lamps in the presence and absence of bilirubin, 337
Aromatic amino acids
UV photolysis of aromatic amino acids and related dipeptides and tripeptides, 159

Bacteriorhodopsin
the thermal stability of native, delipidated, deionized and regenerated bacteriorhodopsin 289
Bergamot oil
genotoxicity of bergapten and bergamot oil in *Saccharomyces cerevisiae*, 209
in vitro photostability and photosensitizing properties of bergamot oil. Effects of a cinnamate sunscreen, 199
phototoxic properties of perfumes containing bergamot oil on human skin: photoprotective effect of UVA and UVB sunscreens, 251
phototumorigenesis studies of 5-methoxypsoralen in bergamot oil: evaluation and modification of risk of human use in an albino mouse skin model, 231
Bergamottin
in vitro photostability and photosensitizing properties of bergamot oil. Effects of a cinnamate sunscreen, 199
Bilirubin
recent advances in bilirubin photophysics, 1
single-strand breaks in the DNA of human cells exposed to visible light from phototherapy lamps in the presence and absence of bilirubin, 337
Bilirubin photochemistry
recent advances in bilirubin photophysics, 1
Bilirubin photophysics
recent advances in bilirubin photophysics, 1

Carbene selectivity
philicity of amino acid side-chains for photogenerated carbenes, 277
Carbenes
philicity of amino acid side-chains for photogenerated carbenes, 277
Chemotherapy
review of photodynamic therapy for gastrointestinal tumours in the past 6 years in China, 87
Chlorin e_6
chlorin e_6–liposome interaction. Investigation by the methods of fluorescence spectroscopy and inductive resonance energy transfer, 43
Chromatin
visible light induced DNA–protein cross-linking in DNA–histone complex and sarcoma-180 chromatin in the presence of methylene blue, 57

Deprotonation
the thermal stability of native, delipidated, deionized and regenerated bacteriorhodopsin, 289
Diazirines
philicity of amino acid side-chains for photogenerated carbenes, 277
1,6-Diphenyl-1,3,5-hexatriene
chlorin e_6–liposome interaction. Investigation by the methods of fluorescence spectroscopy and inductive resonance energy transfer, 43
DNA adducts
photosensitization of DNA of defined sequence by furochromones, khellin and visnagin, 317
DNA damage
single-strand breaks in the DNA of human cells exposed to visible light

Elsevier Sequoia/Printed in The Netherlands

from phototherapy lamps in the presence and absence of bilirubin, 337
DNA–histone complex
visible light induced DNA–protein cross-linking in DNA–histone complex and sarcoma-180 chromatin in the presence of methylene blue, 57
DNA–protein cross-link
visible light induced DNA–protein cross-linking in DNA–histone complex and sarcoma-180 chromatin in the presence of methylene blue, 57

Emission
absorbance and emission properties of palladium octaethylporphyrin and palladium tetrahexylporphyrin in solution and in phospholipid membranes, 181
T4 Endonuclease V
SKH-1 hairless mice repair UV-induced pyrimidine dimers in epidermal DNA, 173
Enzyme inactivation
metalloporphyrin phototoxicity, 149
Epidermis
SKH-1 hairless mice repair UV-induced pyrimidine dimers in epidermal DNA, 173
Estimated energy dose
review of photodynamic therapy for gastrointestinal tumours in the past 6 years in China, 87
Excition coupling
recent advances in bilirubin photophysics, 1

Fluorescence lifetime
absorbance and emission properties of palladium octaethylporphyrin and palladium tetrahexylporphyrin in solution and in phospholipid membranes, 181
Fluorescence quenching
chlorin e_6–liposome interaction. Investigation by the methods of fluorescence spectroscopy and inductive resonance energy transfer, 43
the local anaesthetic tetracaine as a quencher of perylene fluorescence in micelles, 75
Furochromones
photosensitization of DNA of defined sequence by furochromones, khellin and visnagin, 317
Furocoumarins
photosensitization of DNA of defined sequence by furochromones, khellin and visnagin, 317

Gastrointestinal tumour
review of photodynamic therapy for gastrointestinal tumours in the past 6 years in China, 87
Genotoxicity
genotoxicity of bergapten and bergamot oil in *Saccharomyces cerevisiae*, 209
Green light
single-strand breaks in the DNA of human cells exposed to visible light from phototherapy lamps in the presence and absence of bilirubin, 337

Haematoporphyrin derivative
carrier thiols are targets of Photofrin II photosensitization of isolated rat liver mitochondria, 21
photodynamic therapy in head and neck surgery, 353
review of photodynamic therapy for gastrointestinal tumours in the past 6 years in China, 87
SKH-1 Hairless mouse
SKH-1 hairless mice repair UV-induced pyrimidine dimers in epidermal DNA, 173
Head and neck surgery
photodynamic therapy in head and neck surgery, 353
Hyperbilirubinemia
metalloporphyrin phototoxicity, 149

Indoles
the interaction of singlet molecular oxygen $O_2(^1\Delta_g)$ with indolic derivatives. Distinction between physical and reactive quenching, 33
Internal messengers
phototransduction: different mechanisms in vertebrates and invertebrates, 107

Laser UV photolysis
UV photolysis of aromatic amino acids and related dipeptides and tripeptides, 159

Laser-fibre method
fibre-laser IR luminescence diagnostics of malignant tumors using rare earth porphyrins, 15
Light response
phototransduction: different mechanisms in vertebrates and invertebrates, 107
Lipid–psoralen photoaddition
structure of a psoralen–linolenic acid methyl ester photocycloadduct, 347
Liposomes
absorbance and emission properties of palladium octaethylporphyrin and palladium tetrahexylporphyrin in solution and in phospholipid membranes, 181
chlorin e_6–liposome interaction. Investigation by the methods of fluorescence spectroscopy and inductive resonance energy transfer, 43
Local anaesthetic
the local anaesthetic tetracaine as a quencher of perylene fluorescence in micelles, 75
Localization
chlorin e_6–liposome interaction. Investigation by the methods of fluorescence spectroscopy and inductive resonance energy transfer, 43
Luminescence contrast
fibre-laser IR luminescence diagnostics of malignant tumors using rare earth porphyrins, 15

Malignant tumours
fibre-laser IR luminescence diagnostics of malignant tumors using rare earth porphyrins, 15
Manganese deferiozamine
investigations of a manganese-containing mimic of superoxide dismutase in riboflavin phototoxicity in human cells *in vitro*, 261
Metalloporphyrins
metalloporphyrin phototoxicity, 149
the tumour-localizing properties of porphyrin derivatives, 189
5-Methoxypsoralen
genotoxicity of bergapten and bergamot oil in *Saccharomyces cerevisiae*, 209
phototumorigenesis studies of 5-methoxypsoralen in bergamot oil: evaluation and modification of risk of human use in an albino mouse skin model, 231
Methylene blue
visible light induced DNA–protein cross-linking in DNA–histone complex and sarcoma-180 chromatin in the presence of methylene blue, 57
Micelles
the local anaesthetic tetracaine as a quencher of perylene fluorescence in micelles, 75
Mitochondria
carrier thiols are targets of Photofrin II photosensitization of isolated rat liver mitochondria, 21

Nitrogen-pulsed laser
the tumour-localizing properties of porphyrin derivatives, 189

Palladium porphyrins
absorbance and emission properties of palladium octaethylporphyrin and palladium tetrahexylporphyrin in solution and in phospholipid membranes, 181
Paracentrotus lividus
primary effects of singlet oxygen sensitizers on eggs and embryos of sea urchins, 303
Partition
chlorin e_6–liposome interaction. Investigation by the methods of fluorescence spectroscopy and inductive resonance energy transfer, 43
Peptide bond scission
UV photolysis of aromatic amino acids and related dipeptides and tripeptides, 159
Peptides
UV photolysis of aromatic amino acids and related dipeptides and tripeptides, 159
Perfume
phototoxic properties of perfumes containing bergamot oil on human skin: photoprotective effect of UVA and UVB sunscreens, 251
Perylene
the local anaesthetic tetracaine as a quencher of perylene fluorescence in micelles, 75
Phorbine
the tumour-localizing properties of porphyrin derivatives, 189

Phosphate carrier
carrier thiols are targets of Photofrin II photosensitization of isolated rat liver mitochondria, 21
Photo-oxidation
the interaction of singlet molecular oxygen $O_2(^1\Delta_g)$ with indolic derivatives. Distinction between physical and reactive quenching, 33
Photocarcinogenesis
phototumorigenesis studies of 5-methoxypsoralen in bergamot oil: evaluation and modification of risk of human use in an albino mouse skin model, 231
Photocycloaddition
structure of a psoralen–linolenic acid methyl ester photocycloadduct, 347
Photodynamic effect
photosensitization of DNA of defined sequence by furochromones, khellin and visnagin, 317
primary effects of singlet oxygen sensitizers on eggs and embryos of sea urchins, 303
Photodynamic therapy
photodynamic therapy in head and neck surgery, 353
review of photodynamic therapy for gastrointestinal tumours in the past 6 years in China, 87
Photohemolysis
metalloporphyrin phototoxicity, 149
Photolabelling
philicity of amino acid side-chains for photogenerated carbenes, 277
Photoprotection
phototoxic properties of perfumes containing bergamot oil on human skin: photoprotective effect of UVA and UVB sunscreens, 251
Photoreceptors
phototransduction: different mechanisms in vertebrates and invertebrates, 107
Photosensitization
carrier thiols are targets of Photofrin II photosensitization of isolated rat liver mitochondria, 21
in vitro photostability and photosensitizing properties of bergamot oil. Effects of a cinnamate sunscreen, 199
Photosensitized reactions
the interaction of singlet molecular oxygen $O_2(^1\Delta_g)$ with indolic derivatives. Distinction between physical and reactive quenching, 33
Photostability
in vitro photostability and photosensitizing properties of bergamot oil. Effects of a cinnamate sunscreen, 199
Phototherapy
single-strand breaks in the DNA of human cells exposed to visible light from phototherapy lamps in the presence and absence of bilirubin, 337
Phototoxicity
investigations of a manganese-containing mimic of superoxide dismutase in riboflavin phototoxicity in human cells *in vitro*, 261
metalloporphyrin phototoxicity, 149
phototoxic properties of perfumes containing bergamot oil on human skin: photoprotective effect of UVA and UVB sunscreens, 251
Phototransduction
phototransduction: different mechanisms in vertebrates and invertebrates, 107
Porphine
the tumour-localizing properties of porphyrin derivatives, 189
Psoralens
phototoxic properties of perfumes containing bergamot oil on human skin: photoprotective effect of UVA and UVB sunscreens, 251
structure of a psoralen–linolenic acid methyl ester photocycloadduct, 347
Pyrimidine dimers
SKH-1 hairless mice repair UV-induced pyrimidine dimers in epidermal DNA, 173

Quantum yields
absorbance and emission properties of palladium octaethylporphyrin and palladium tetrahexylporphyrin in solution and in phospholipid membranes, 181
Quenching kinetics
the interaction of singlet molecular oxygen $O_2(^1\Delta_g)$ with indolic derivatives. Distinction between physical and reactive quenching, 33

Riboflavin
investigation of a manganese-containing mimic of superoxide dismutase in riboflavin phototoxicity in human cells *in vitro*, 261

Saccharomyces cerevisiae
genotoxicity of bergapten and bergamot oil in *Saccharomyces cerevisiae*, 209
Single-strand breaks
single-strand breaks in the DNA of human cells exposed to visible light from phototherapy lamps in the presence and absence of bilirubin, 337
Singlet molecular oxygen
the interaction of singlet molecular oxygen $O_2(^1\Delta_g)$ with indolic derivatives. Distinction between physical and reactive quenching, 33
Singlet oxygen
primary effects of singlet oxygen sensitizers on eggs and embryos of sea urchins, 303
SD mimic
investigation of a manganese-containing mimic of superoxide dismutase in riboflavin phototoxicity in human cells *in vitro*, 261
Spectrofluorometry
the tumour-localizing properties of porphyrin derivatives, 189
Sphaerechinus granularis
primary effects of singlet oxygen sensitizers on eggs and embryos of sea urchins, 303
Sunscreens
in vitro photostability and photosensitizing properties of bergamot oil. Effects of a cinnamate sunscreen, 199
phototoxic properties of perfumes containing bergamot oil on human skin: photoprotective effect of UVA and UVB sunscreens, 251
phototumorigenesis studies of 5-methoxypsoralen in bergamot oil: evaluation and modification of risk of human use in an albino mouse skin model, 231
Superoxide anion
investigations of a manganese-containing mimic of superoxide dismutase in riboflavin phototoxicity in human cells *in vitro*, 261

Tetracaine
the local anaesthetic tetracaine as a quencher of perylene fluorescence in micelles, 75
Thermal stability
the thermal stability of native, delipidated, deionized and regenerated bacteriorphodopsin, 289
Thiol groups
carrier thiols are targets of Photofrin II photosensitization of isolated rat liver mitochondria, 21
Translucent cells
primary effects of singlet oxygen sensitizers on eggs and embryos of sea urchins, 303
Tumor-localizing capacity
the tumour-localizing properties of porphyrin derivatives, 189

UV light
SKH-1 hairless mice repair UV-induced pyrimidine dimers in epidermal DNA, 173

Vertebrate and invertebrate phototransduction
phototransduction: different mechanisms in vertebrates and invertebrates, 107
Visible light
visible light induced DNA–protein cross-linking in DNA–histone complex and sarcoma-180 chromatin in the presence of methylene blue, 57
Visual cascade
phototransduction: different mechanisms in vertebrates and invertebrates, 107

Ytterbium porphyrins
fibre-laser IR luminescence diagnostics of malignant tumors using rare earth porphyrins, 15
